

Lab 15.1: Building an application

Levi Terry

UAT

CSC230 Internet of Things

Prof. Prater

8/24/25

15.1: Retrieving data from a Google Firebase

This project is a quote display. It will fetch random quotes from the Quotable API and showcase them on the Core2's screen. It also has autofetch functionality so new quotes can be refreshed at a normal interval. It is also able to see the current time

Implementation

BOM

Item	QTY
M5Core2	1
USB-C Cable	1
